PHP / Web Developer

Hello, and thank you for your interest in a PHP / Web Developer position in Ann Arbor, Michigan. This position is to assist with upcoming jobs where you will work with our existing team to develop web based database applications using PHP and MySQL on an Apache/Linux environment. The nature of this job is a part-time contract position that could possibly lead to a full time position in the future.

General Skills:

- Good communication skills
- Good documentation skills
- Attention to detail
- Self motivated
- Team player – works well with others
- Ability to prioritize work and work within established timelines.

Technical Skills (minimum 3+ years experience):

- Can write semantically correct xhtml / css code using a text editor
- Proficiency with Javascript / JQuery
- Experience developing different types of unobtrusive site navigation, including jquery drop down menus.
- Troubleshooting browser compatibility issues
- Basic design skills and proficiency with Photoshop (not necessarily a design guru, but you need to be able to “crop your way out of a paper bag” and swap out colors)
- Linux / Apache / MySQL / PHP5
- Object Oriented PHP (classes / inheritance)
- Can develop PHP websites from the ground up without relying on any frameworks.
- Experience working on larger projects with non-trivial functionality.
Examples might include shopping cart systems with session management, real time shipping calculations, complicated pricing algorithms, or multi-user systems with different levels of user access, handling uploaded pictures and documents, different levels of email notifications, and complicated business logic.
- Debugging and troubleshooting PHP and Javascript
- Proficiency with MySQL administration, queries, and usage.
- Proficiency with PHP and general web security
- System administration skills a plus (setting up a Linux server from scratch, installing and configuring Apache, forwarding ports through firewalls, setting up MySQL databases)

Interested candidates should submit their resume in PDF format via email to jobs@nsgroupllc.com. Qualified candidates will be contacted to arrange a time for an interview. Please do not call to inquire – any questions should be directed to jobs@nsgroupllc.com.
